

How Healthy is Your Heart?

(and the hearts of those you love)

On average it beats 100,000 times per day.

Each minute it pumps 1.5 gallons of blood.

You have 60,000 miles of blood vessels.

The Aorta is nearly the diameter of a garden hose.

Heart disease is your greatest health threat.

Don't wait for something "bad" to happen. Practice prevention!

Ask us how we can help fulfill
the needs of your heart...
today, tomorrow and always!
