

IF YOU'RE TOO STRESSED TO READ THIS, READ THIS.

Stress is taking a serious toll on your body.

Fortunately there is something you can do. If you are experiencing fatigue, lower back pain, allergies or decreased libido, it could be a sign of adrenal fatigue - brought on by excess stress. Support your adrenals with MediHerb Adrenal Complex. Ask your health practitioner for more information today.

WHAT ARE MY ADRENAL GLANDS?

The adrenal glands sit atop the kidneys and are the body's main stress-handling organs. Responsible for the "fight or flight" response, our adrenals produce hormones which raise our heart rate, blood pressure, and pump blood to our outer extremities in response to stress. While this process was once key to human survival, modern day demands have put our bodies in a constant fight or flight state, which our adrenals simply aren't intended to handle.

Adrenal Complex is a synergistic blend of Licorice and Rehmannia, two powerful adrenal tonics. This potent formulation is designed to support the adrenal glands and provide a healthy response to stress.*

Licorice is one of the most widely used herbs around the world. It has been used for thousands of years for a range of purposes including supporting adrenal health. Rehmannia has been used in Chinese medicine for centuries and is revered for its ability to replenish vitality.

Adrenal Complex is manufactured using the highest quality herbs to deliver a superior product. *ASK YOUR HEALTH CARE PRACTITIONER FOR MORE INFORMATION ON ADRENAL COMPLEX TODAY.*
